Brakes

- Corrected an improperly installed brake line issue from a previous repair, restoring the braking system to proper factory operation.

Ownership Summary

This Wrangler received attention well beyond routine maintenance. Rather than simply replacing worn parts, many known TJ wear items were proactively repaired or upgraded, resulting in a dependable and well-sorted Jeep. The combination of tasteful accessories, extensive maintenance, and mechanical improvements made it an excellent example of a classic Wrangler Sahara that was ready for both everyday driving and weekend adventures.
