

2018 Jeep Wrangler Unlimited Rubicon Recon

American Expedition Vehicles (AEV) JK350 Expedition Build

VIN: 1C4BJWFG7JL842752

Price: \$48,500

Ownership: One Owner

Mileage: 35,000 Miles

Overview

This **2018 Jeep Wrangler Unlimited Rubicon Recon** represents one of the final and most desirable editions of the JK platform. Finished as a factory **Rubicon Recon**, this Wrangler combines the proven reliability of the 3.6L Pentastar with a professionally installed **American Expedition Vehicles (AEV) JK350 package**, creating an expedition-ready vehicle equally capable of cross-country overlanding and technical rock crawling.

Unlike many heavily modified Jeeps, this Recon has been meticulously maintained, thoughtfully upgraded with premium components, and driven on some of North America's most iconic trails. Every modification was selected with reliability, functionality, and long-distance travel in mind rather than appearance alone.

With only **35,000 original miles**, one owner, and extensive documentation, this Jeep represents a rare opportunity to own one of the most complete JK expedition builds available.

- IPF 6" Driving Lights
 - IPF Auxiliary Rear Light
 - LUX Rock Lighting System
-

Air System

Prepared for an ARB Dual Air Compressor using the Innovative JK Products complete mounting bracket and plumbing system.

(Compressor not installed.)

Expedition Build Philosophy

This Wrangler was built with one goal:

Travel anywhere reliably.

Every modification emphasizes durability, serviceability, and real-world expedition capability instead of unnecessary accessories. The build remains balanced, comfortable on pavement, and exceptionally capable in remote environments.

Expedition History

Unlike many highly modified Jeeps that spend their lives at local events, this Rubicon Recon has proven itself across thousands of miles of some of America's best overland routes and legendary Jeep trails.

2018

Mountain State Overland

The Jeep's first major expedition through the backcountry of West Virginia, introducing it to remote forest roads and Appalachian overlanding.

2019

Easter Jeep Safari – Moab, Utah

Completed numerous world-famous trails including:

- Top of the World
- Copper Ridge
- Kane Creek
- Steel Bender
- Tower Arch

Visited:

- Arches National Park
 - Canyonlands National Park
-

2020

New River Gorge

Explored the rugged backcountry surrounding what would soon become America's newest National Park.

Colorado Expedition

Major destinations included:

- T-33 Crash Site
 - Rampart Range Road
-

Ouray & San Juan Mountains

One of the Jeep's most memorable adventures through Colorado's legendary high-country mining district.

Completed:

- Black Bear Pass
- Imogene Pass
- Engineer Pass
- Ophir Pass
- Poughkeepsie Gulch
- Hurricane Pass

Visited:

- Telluride
 - Ouray
 - Silverton
 - Durango
 - Red Mountain Mining District
 - Idarado Mining Area
 - Golconda Boarding House
 - Durango & Silverton Narrow Gauge Railroad
-

2021

Allegheny National Forest

Winter overlanding expeditions in both January and March, demonstrating the Jeep's capability in snow, ice, and freezing temperatures.

Condition

This Jeep has been enthusiast-owned from new and carefully maintained throughout its life.

It has never been built simply for appearance—it was engineered to travel, explore, and return home reliably. Every modification serves a functional purpose, and the vehicle reflects years of thoughtful ownership rather than hard abuse.

With only **35,000 miles**, this Wrangler remains exceptionally clean while carrying the stories of some of North America's most iconic Jeep destinations.

Legacy

The 2018 Wrangler JK Rubicon Recon marked the final evolution of the legendary JK platform before production transitioned to the JL.

Combined with the complete AEV JK350 conversion and an extensive expedition history, this Wrangler represents far more than a modified Jeep—it is a purpose-built expedition vehicle that has already proven itself on America's most famous trails while remaining ready for many more adventures ahead.
